

We use electricity from Göteborg Energi labelled with

Good Environmental Choice

It is hereby certified that the electricity used in 2023 by

Geely Innovation Centre Management AB

meets the Swedish Society for Nature Conservation's
criteria for Good Environmental Choice

26h of May, 2023

Patrik Grantås

Director of Marketing & Sales, Göteborg Energi AB

Good Environmental Choice means:

Good Environmental Choice is an independent eco-label that contributes to a healthier nature and fewer hazardous substances in everyday products. The environmental requirements are set and controlled by the Swedish Society for Nature Conservation.

Criteria for Good Environmental Choice-labelled electricity:

Electricity marked with Good Environmental Choice is electricity from renewable sources that also meets strict environmental requirements. For every kilowatt hour sold, funds are set aside for environmental improvement project and measures to reduce energy use. Good Environmental Choice is Sweden's only eco-labeling of electricity and one of the toughest in the world.

Göteborg Energi's license number is 5-2022-0041-6 for Good Environmental Choice-labelled electricity.
